Dear Mr. Klingman:

Re: Request for Updated Maps and Updated Reclamation Estimate, St. George Mining Corporation, Apex Mine, ACT/053/004, Washington County, Utah

The Division issued a mining and reclamation permit to the Apex Mine in August 1984. At that time, a reclamation bond was posted for \$54,389 (using 1984 figures and escalated to 1985 dollars). The Division has visited the mine site and subsequently noted additional disturbed areas: a large concrete bin wall, a bone yard, a crusher unit and stockpile, gravel and cement hoppers and a new culvert.

The Division requests that a revised and updated map of the mine area be submitted denoting all of the facilities as of this date. Additionally, please submit an updated estimate for reclamation at the Apex Mine. Upon Division approval of the map and cost estimate, St. George Mining will be required to post the updated bond amount.

Please submit this information to the Division by November 1, 1986.

If you have any questions, please call Pamela Grubaugh-Littig or myself at telephone number 538-5340.

Sincerely,

L. P. Braxton
